## DISCLAIMER

### General

These terms apply to the use of this document and such use automatically means that the other party agrees to these terms. The information provided by Trespa International B.V. ("Trespa") in this document is solely indicative. Trespa is unable to warrant the accuracy and completeness of this information. Trespa may change the information included in this document at any time and without further notice. Trespa's customers and third parties must ascertain that they have the most recent document (for the most recent version, please consult: [www.trespa.com](http://www.trespa.com)). No rights can be derived from the information provided; the use of the information is at the other party's risk and responsibility.

Trespa does not warrant that the information in this document is suitable for the purpose for which it is consulted by the other party. This document does not contain any design, structural calculation, estimate or other warranty or representation that customers and third parties may rely on. This document does not guarantee any properties of Trespa products. Colours used in Trespa's communications (including but not limited to printed matter) and in samples of Trespa's products may differ from the colours of the Trespa products to be supplied. Samples are not intended for use in product tests

and are not representative of characteristics of the Trespa products. Trespa's products and samples are produced within the specified colour tolerances and the colours (of production batches) may differ, even if the same colour is used. The viewing angle also influences the colour perception. Metallic panels feature a surface whose colour appears to change based on the direction from which it is viewed. The specified colour stability and colour specifications relate only to the decorative surface of the Trespa products, not to the core material and samples of the Trespa products. Trespa products are delivered ex-works with straight, sawn sides.

Customers and third parties must have a professional adviser inform them about (the suitability of) the Trespa products for all desired applications and about applicable laws and regulations. Trespa does not warrant the above.

The most recent version of the current delivery programme and the Material Properties Datasheet can be found at [www.trespa.info](http://www.trespa.info). Only the information in the most recent and valid Material Properties Datasheet should be used to select and provide advice regarding Trespa products. Trespa reserves the right to change (the specifications for) its products without prior notice.

TRESPA®

## Natural irregularity

Natural decors and irregular faceted shapes create a surprising landscape with an authentic look.

## Creating an image

The palette of cool colours beautifully translates into expressive façades.

# Rhythm

## Colour your ideas

Trespa Perspectives offer a platform where ideas can take shape, offering new opportunities for design. Colour is one of the most versatile means of setting a rhythm; taut-lined and uniform or diverse and dynamic. Enabling you to combine, structure, accentuate, and create new dimensions as you like. The range features bright and subdued, light and dark colours, colour families and contrasting colours. The result: eye-catching buildings with their own character and innovative designs bearing your signature. In addition to a large number of standard colours, Trespa also offers the project colours of your choice. You can give your imagination free rein, without losing sight of budgets.

> Architect: CJS Architects

> Shopping Centre Megapark, Spain  
> Architect: Chapman Taylor

## Sparkling changes

Colour shades, playful application and metallics combine to render a brilliant effect.

## Logical mixture

A quilted pattern of soft colours bridges the gap between the building and its environment.

## Unity in diversity

Colours with traditional values give shape to contemporary patterns and structures.

## Making a clear statement

Taut lines and outspoken colour accents let large surfaces speak up, creating depth and dimension.

The designs shown in this brochure are for inspiration only and have not been submitted to specific tests. Actual designs may vary, depending on specific location, regulations and circumstances. Design and fixing systems may influence possible end results. Trespa Meteon is CE marked and fully complies with the EU standard. Always check if the desired design is in accordance with any national and/or local building regulations and specifications.

**Inspiration comes to life**  
With a broad range of colours, finishes and tactile effects, Trespa Meteon brings compelling aesthetic and nearly limitless design possibilities to next-generation architectural claddings. Depending on the architectural concept, Trespa Meteon can contribute effectively to energy efficient, healthy building designs with a positive impact on long-term performance and value.
